SECURE ECOMMERCE SYSTEMS

At Looking4 we are deservedly proud about our never ending efforts to ensure our systems operate with best practice security in mind.

PCI DSS Protection

- All our ecommerce entry points are fully PCI DSS compliant
- All our transactional websites and customer service call centres are validated every 3 months to ensure ongoing compliance
- Credit Card details are erased from our system immediately after purchase
- Up to date certificates are available on request

256 bit SSL Security

- Anywhere within our systems that handles (or could potentially handle) either ecommerce transactions or personal customer/client information is protected with 256 bit Digicert EV SSL Certificates. Our SSL Provider is Digicert

ICO Membership

- In the UK we are fully signed up members of the Information Commissioners Office
